

MCCPTA Committee Update – April 2007

Health Committee: Tracy Fox, Chair, tracyfox@comcast.net

Pilot testing of the MCPS Sex Ed Curriculum has come to an end. Over 90% of students given the opportunity to participate did (the tested components of the 8th and 10th grade curriculum – Sexual Orientation and Condom Use – required parents to “Opt-In” and actively allow their student to participate). MCPS is reviewing the results of the pilot test and will provide results to the Superintendent and the Board of Education in the coming months.
