

**Technology Committee Report
November 2009**

Chair: Linda White, lindabwhite1@aol.com

The Technology Committee spent the last month assisting Carol Salsbury, VP Programs, in coordinating the October Delegates Assembly Technology Program with the MCPS Office of Technology & The Chief Technology Officer, Sherwin Collette. The program was very insightful and Mr. Collette used a Promethian Board to demonstrate and review some of the more compelling programs that MCPS is promoting to improve student learning, professional development and productivity for the 21st century classroom. The one hour program was taped on Channel 33 and was well attended at the delegates assembly. A survey was done at the end of the program and it received very high marks. The team is considering doing a more in depth program at a later date.
