John Garza, President
Citizens for a Responsible Curriculum
P.O. Box 183
Damascus, MD 20872

Dear Mr. Garza:

The Montgomery County Council of PTAs is aware that your organization has misused the property of several PTAs in the county. Specifically we are referring to your organizations' use of the Bethesda-Chevy Chase, Westland, Sherwood, Julius West, Watkins Mill, and Beall PTAS/PTA directories.

Washington Post reporter, Daniel DeVise, informed us that Ms Michelle Turner stated on the record that the CRC used the directories because it had no other way to reach parents.

Many of these PTSAs have written directly to your organization and other PTSAs wrote to you in 2005 to protest your use of their directories then. MCCPTA wrote to you in 2006 to inform you that your use was improper. You are well aware that these directories are the property of their respective PTSAs and that your use of them constitutes misuse as defined within their disclaimer which appears in their directory.

Please cease and desist immediately and destroy all information obtained from these directories.

Jane de Winter

A handwritten signature in cursive script that reads "Jane de Winter". The signature is written in black ink and is positioned below the printed name.

President

Resolution Directories

WHEREAS each school year the local PTA units of the Montgomery County Council of PTAs (MCCPTA) Typically compile and publish student directories that include personal and potentially sensitive information such as the names, street addresses, e-mail and telephone numbers of students whose parents have agreed to have such information included, and

WHEREAS by common knowledge and accepted practice these directories are intended exclusively for the private use of the PTA and the local PTA communities to facilitate communication within their communities, and are not intended to be used for any other purpose, and

WHEREAS the president of an organization calling itself the Citizens for Responsible Curriculum (CRC) has privately conceded to MCCPTA officers that CRC obtained copies of selected student directories and used the information in these directories to develop a mailing list for a purpose inconsistent with the intended or appropriate use of the directories, and

WHEREAS the misuse of student directories by CRC has caused substantial concern among parents within the affected communities, and

WHEREAS the PTAs in the affected communities are justifiably concerned that fears about potential future misuse of student directories could lead parents to withhold student directory information, thereby impairing a critical PTA asset,

BE IT FURTHER RESOLVED that the MCCPTA Delegate Assembly strongly believes that the CRC should respond promptly and completely to all questions and concerns raised by local PTA units about the sources and intended uses of their student directory information, specifically identifying any instances in which this information may have already been sold or otherwise made available to another individual or entity, and

BE IT THEREFORE RESOLVED that the MCCPTA Delegate Assembly strongly believes that the CRC should agree in writing to cease using information obtained from PTA student directories, and to return to the affected PTAs all copies of their directory information now in the possession of CRC, in whatever form the information may exist, or certifying in writing that this information has been destroyed, and

BE IT FURTHER RESOLVED that the MCCPTA Delegate strongly believes that the CRC should concede in writing that its use of student directory information was inappropriate and agree that it will refrain from any future use of PTA student directory information.
